

AREG+ Investor Overview

Powering Africa's Digital & Economic Future

1. The Opportunity

Africa's growth is constrained by one critical factor:

Reliable Energy Infrastructure

- ~600M+ people lack access to electricity
- 500,000+ telecom towers (many diesel-powered)
- Rapid expansion of:
 -  Satellite internet
 -  Cloud & AI infrastructure
 -  Mobile networks

 Without energy, none of this scales

2. The Problem

Current infrastructure is:

-  Diesel-dependent (high cost + emissions)
-  Unreliable (downtime, weak grids)
-  Expensive (up to 60% OPEX exposure)
-  ESG risk for global investors

 Result: **Slowed economic and digital growth**

3. The AREG+ Solution

The Energy Layer for Africa's Economy

AREG+ builds **renewable-powered infrastructure** for:

- Telecom networks
- Satellite systems
- Cloud & AI platforms

- Agriculture & rural economies

What We Deliver:

-  Solar + battery systems (24/7 power)
-  Deployment-ready infrastructure
-  Energy-as-a-Service (no capex burden)
-  Telecom & satellite-compatible sites

4. Proven Impact

- **30–50% reduction in operating costs**
- **99%+ uptime reliability**
- **Massive diesel displacement**
- **Thousands of tons of CO₂ avoided annually**

5. Market Focus

Initial high-growth markets:

- NG Nigeria
- KE Kenya
- RW Rwanda
- UG Uganda
- TZ Tanzania
- ZA South Africa

 Expansion across Sub-Saharan Africa

6. Business Model

AREG+ operates a scalable infrastructure model:

- Build–Operate–Lease (BOL)
- Energy-as-a-Service (EaaS)
- Anchor tenancy (telecom / cloud / gov)
- Strategic partnerships & joint ventures

 **Recurring, infrastructure-grade revenue**

7. Strategic Partnerships

We align with:

- Hyperscalers (AWS, Azure, Google Cloud)
- Satellite operators (Amazon Leo, Starlink, SES, Viasat)
- Telecom providers (MTN, Airtel)
- Governments & DFIs (World Bank, IFC, AfDB)

8. 🌱 ESG & Impact

AREG+ is a **climate-aligned infrastructure platform**

Impact:

- 🌍 Reduced carbon emissions at scale
- 🚛 Diesel elimination across infrastructure
- 🏥 Electrified hospitals & schools
- 🌾 Increased agricultural productivity
- 👩 Women-centered economic impact

Aligned with:

- SDG 7 (Clean Energy)
- SDG 9 (Infrastructure)
- SDG 13 (Climate Action)

9. ✨ Vision

To build Africa's largest renewable-powered infrastructure platform

Where:

- Energy powers connectivity
- Connectivity enables growth
- Growth transforms economies

10. 💰 Investment Opportunity

AREG+ is raising capital to:

- Scale infrastructure deployment
- Expand across key African markets
- Execute active project pipeline
- Build long-term energy platform dominance

Investor Value:

- Infrastructure-grade returns
- ESG-aligned investment
- Exposure to Africa's fastest-growing sectors

Founder

Luwaju Samuel W. Wani
Founder & Group CEO, WGH Inc.

“Energy is the foundation of economic growth.
AREG+ is building that foundation across Africa.”
